HOW TO KEEP CONSISTENT INDIVIDUAL TRIMMING ON YOUR AUTOMATIC LOIN TRIMMER

Achieve the best meat price by having your certified Frontmatec service specialist perform a inspection and accurate calibration of the optical probe, ensuring it's within the specified tolerances providing you with correct classification and individual measurements needed for precise trimming of each loin.

Obtain yield improvement by saving time and labor costs for additional trimming with the help of experienced technicians, who arrange the pressure wheel and the angle of knife bridge for precise and clean cuts.

Be prepared for the unexpected by stocking the most used spare parts for daily operation such as the chain, sprockets, tooth roller and cylinders.
